Dr. James B. Rhoads, Archivist
The National Archives
Washington, D.C.

Dear Dr. Rhoads,

Your letter of August 8 says you find nothing in the Warren Commission files on Richard C. Harper. My request was for documents relating to or interviews with Richmond C. Harper, also referred to as "Tito" Harper.

I recognize that this can be a typists error. I write to be certain no other error was made.

His wife is Conchita Harper. They are the subject of testimony at 8H461 and 9H 213.

If there are any documents under her name, I would like them also.

It may help you to know the Harpers were friends of George deMohrenschildt

Sincerely,

Harold Weisberg
